

THE GLENBROOKS

CONGRESSIONAL DEBATE

CHAMBER LISTS

2009

The students were assigned to chambers by first sorting by school, and then by region of the country. If a school has 14 or more debaters, they were assigned to 6 different chambers (leaving 4 free for their judges to be assigned). If a school has 8 to 13 debaters, they were assigned to 7 different chambers (leaving 3 free for their judges to be assigned). If a school has 7 or fewer, then every debater is in a different chamber.

Committees were assigned so that every school is evenly distributed to the 3 committees, when possible. This means that the committee counts within each chamber may not be perfect, but the committee counts within each school are.

Finally, this is a tentative list. Adds or drops may require us to alter these assignments.
